

BUILT FOR THE SHIFT.

Hydration. Personal cooling. Crew supply.

A COORDINATED PROGRAM FOR THE WORKDAY

One program. Clear choices.

Build an assortment around your crew, your site and your purchasing needs. Combine ICHOR hydration with Rituo personal cooling, then plan replenishment around actual use.

01 / HYDRATION

Plain water, electrolyte powders, sports drinks and freezer pops. Hydrogen + electrolyte sticks add a premium ICHOR option.

02 / PERSONAL COOLING

ShiftCool neck and cuff concepts, reflective accessories and a personal carry case. Plan individual assignment and preparation.

03 / CREW SUPPLY

Select an opening assortment, confirm site storage and receiving, then establish a practical reorder cadence.

Start with one crew.

Share crew size, locations, timing and products of interest. Scope a pilot, confirm availability and delivered pricing, then review use before expanding.

WATCH THE FILM · EXPLORE THE PRODUCTS · PLAN A PILOT

Partnership concept. Visuals are illustrative; final specifications, branding, availability and commercial terms require confirmation. Cooling accessories and hydration complement the employer's heat procedures.
